## WORK EXPERIENCE

### React js Devloper

Infocus Research Lab pvt

chennai

March 2023 - October 2023

<https://www.focusresearchlabs.com/>

- Spearheaded bug fixing and debugging initiatives, enhancing front-end UI quality.
- Resolved UI issues with a dedicated approach, resulting in substantial improvements to user experience and interface design.
- Implemented minor features and functionalities, optimizing application performance.
- Orchestrated API connectivity management, ensuring data integrity and facilitating seamless communication with MongoDB.
- Developed and maintained Redux-related functionality for efficient state management.

### Web Devloper Intern

Gigaai pvt

kolkata

April 2022 - September 2022

<https://gigaai.in/>

- Attained foundational expertise in web development, mastering HTML, CSS, and JavaScript.
- Contributed significantly to small-scale web development projects, gaining hands-on experience and implementing theoretical knowledge.
- Collaborated seamlessly within a team, actively participating in project development and improvement initiatives.
- Played a key role in designing and coding web elements, enhancing overall user experiences.
- Demonstrated unwavering commitment to continuous learning and professional growth throughout the internship period as a proactive web developer.

## PROJECT

### Signup Login

<https://sign-up-in-auth.netlify.app/>

- Developed a user-friendly Signup and Login web application using React and Redux, showcasing proficiency in modern front-end technologies.
- Implemented a robust user validation system, fortifying security and elevating the overall user experience.
- Applied effective form handling techniques, ensuring efficient data collection and submission processes.
- Leveraged Axios to seamlessly fetch data from external APIs and dynamically displayed it in the user dashboard.
- Attained practical expertise in React, Redux, API integration, user validation, and CSS styling, demonstrating a versatile skill set throughout the successful completion of the project.

### User Management System

- Utilized Node.js and Express.js for adept server-side development, showcasing proficiency in backend technologies.
- Developed RESTful APIs, ensuring smooth handling of CRUD operations for efficient data manipulation.
- Integrated frontend and backend systems, establishing a cohesive environment for effective communication and data flow.
- Leveraged various libraries and tools, including Axios for precise API requests and toastify for popup notifications, tailored to project requirements.
- Implemented robust error handling and validation mechanisms on both the server and client sides, ensuring a secure and reliable application.

## EDUCATION

### Regent Education & Research Foundation

B.tech in Computer Science 2018-2022 kolkata

### Adarsh Madhyamik Vidyalaya

Higher Secondory 2015-2017 kolkata

### Adarsh Madhyamik Vidyalaya

Secondory 2014 - 2015 kolkata

## SKILLS

Html / Css  
Javascript  
React  
Redux  
Front End Devepment  
Testing - Cypress ,Unit Testing  
Version Control - Git  
Sass  
Api integration  
Tailwind  
Node js , mongo (basics)

## TOOLS

Github  
Chrome Dev  
Postman  
VS code

## SOFT SKILLS

Team Work  
Communication  
Problem Solving
