Address:Laketown, Kolkata - 700048

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Regent Education & Research Foundation, Kolkata
2018 – 2022

Higher Secondary (Class XII)

Adarsh Madhyamik Vidyalaya, Kolkata
2015 – 2017

Secondary (Class X)

Adarsh Madhyamik Vidyalaya, Kolkata
2014 – 2015

TECHNICAL SKILLS

- **Languages**: HTML, CSS, JavaScript, TypeScript

- **Frameworks**: React.js, Redux

- **Back-End**: Node.js, Express.js, MongoDB

- **Tools**: Git, GitHub, Postman

- **UI/UX**: Tailwind CSS, Sass

- **API Integration**: RESTful APIs, Axios

- **Testing**: Unit Testing, Cypress , Vitest

- **Development**: Visual Studio Code (VS Code), Chrome Developer Tools

---

SOFT SKILLS

Team Collaboration: Effectively work within diverse teams to achieve project goals and maintain a positive work environment.

S**trong Communication:** Clearly convey ideas, provide constructive feedback, and facilitate seamless interactions with team members and stakeholders.

Problem-Solving: Proactively analyze challenges, identify solutions, and implement strategies to overcome obstacles efficiently.

Bengali

WORK EXPERIENCE

React JS Developer

Infocus Research Lab pvt

March 2023 - October 2023

https://www.focusresearchlabs.com/

- Led front-end debugging and resolution, significantly improving UI quality and performance.
- Resolved critical UI/UX issues, enhancing overall usability and user satisfaction.
- Designed and implemented new features, boosting application functionality and performance.
- API Integration: Demonstrated proficiency in integrating APIs, ensuring seamless communication between front-end and back-end systems, and enhancing overall application functionality
- Developed Redux-based state management systems, enhancing app scalability and consistency.

Web Developer Intern

Gigaai pvt

April 2022 - September 2022

https://gigaai.in/

- Developed foundational expertise in web technologies, including HTML, CSS, JavaScript, React.js, and Redux.
- Contributed to small-scale web projects, delivering functional, user-friendly solutions.
- Collaborated effectively with cross-functional teams, ensuring smooth project execution and continuous improvement.
- Designed and implemented interactive web elements, enhancing the user interface and overall user experience.
- Proactively stayed updated on web development trends, expanding technical skills throughout the internship.

PROJECT

Signup Login

https://sign-up-in-auth.netlify.app/

- Designed and developed a user-friendly Signup and Login web application using React and Redux, demonstrating expertise in modern front-end technologies.
- Implemented a secure and efficient user validation system, enhancing application security and improving the user experience.
- Optimized form handling processes, enabling seamless data collection and submission for improved performance.
- Integrated external APIs with Axios, dynamically fetching and displaying data in a user-friendly dashboard.
- Showcased practical expertise in React, Redux, API integration, user authentication, and CSS styling, successfully delivering a fully functional and visually appealing application.

User Management System

- Built a robust backend system using Node.js and Express.js, demonstrating expertise in server-side development and backend technologies.
- Designed and implemented RESTful APIs to streamline CRUD operations, ensuring efficient data management and manipulation.
- Integrated frontend and backend systems, creating a seamless environment for effective communication and real-time data flow.
- Utilized tools and libraries, such as Axios for precise API requests and Toastify for dynamic notifications, enhancing the application's functionality and user experience.
- Developed secure and reliable systems by implementing comprehensive error handling and validation mechanisms on both server and client sides.
